

NOXEM GROUP — Supplier request

Thursday 8 October 2026 · Flat glass, full containers · 4 files — all answers needed Friday 9 October

1. CANADA — CIF Toronto

REVISED PRICE FRIDAY

The CIF Toronto price has to change — it is too expensive. He wants **standard jumbo 3210 × 2550 mm**.

2. NAMIBIA — LAMINATED ONLY

SOLUTION NEEDED FRIDAY

This one has waited long enough, and I have to be straight with you: the buyer has run out of patience.

Look at what he actually moves. He is not testing the market — **he loads real containers every single month, more than four containers a week**. That is a buyer worth a full year of business, and I am certain of it.

Forget the float. Drop it from this enquiry. The only thing that matters to him is **laminated** — and the reason is simple: he reports an **anti-dumping duty of 230 % on laminated** at his border. So he has no choice, and neither do we. **A solution has to be found.**

Any other origin is fine by me — Malaysia or anywhere else. I am not asking you where it comes from. I am asking you to find it.

Laminated references — the only ones that count	Size (mm)	Basis
Clear laminated 6.38	2440 × 2000	one 20' per product
Tinted grey laminated 6.38	2440 × 2000	one 20' per product
Translucent white laminated 6.38	2440 × 2000	one 20' per product

Three 20' containers, **CIF Walvis Bay**, freight on a separate line. Sizes and quantities are confirmed in writing by the buyer. **Open since 28 September — eleven days.**

3. MARTINIQUE — production and shipping

CONFIRM FRIDAY

Three short confirmations, nothing more:

- Is the order **actually in production** right now?
- Can you confirm it **still ships on the 26th**, as agreed?
- If possible, **a short video of the production line** — it carries a great deal of weight with a customer who is waiting.

4. TRINIDAD & TOBAGO — CIF Port of Spain

PRICE FRIDAY

New order. Everything is settled on his side — port, format, quantities, container. **Here it is. I need your price, CIF Port of Spain.**

#	Product	Size (mm)	Cases
1	Dark grey tinted float 4 mm	1219 × 2438	5
2	Dark grey tinted float 4 mm	1829 × 2438	5
3	Clear laminated 6 mm	2438 × 1829	6
4	Clear laminated 6 mm	3302 × 2261	5
5	Mirror 6 mm	2438 × 1829	6
6	Clear float 6 mm	2438 × 1829	6
	Total		33

Destination	CIF Port of Spain, Trinidad and Tobago
Container	20' open top — around 4 containers at 10 cases each
Packing	ISPM-15 treated timber cases, paper interleaved. Give me sheets and gross weight per case.
Lead times	Production and delivery.
Volume	Every 2 to 3 months — 4 to 6 shipments a year, on these references.

Friday 9 October, on all four. Canada: the jumbo price. Namibia: a laminated solution, whatever the origin. Martinique: three confirmations and the video. Trinidad: your CIF price on the table above.
